Daily Lesson Log	School	P.M. CLAR ELEMENTARY SCHOOL	Grade	Grade 6
	Teacher	MERALYN P. MATUNDO	Learning Area	MAPEH 6
	Week/Teaching Date	December 1-5,2025	Quarter	Quarter 3 – Week 5
	Time	1:00-1:45		

WEEK 5	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
I. OBJECTIVES					
A. Content Standards	Demonstrates understanding of the concept of musical forms and musical symbols repeat marks) indicated	demonstrates understanding of shapes, colors, values, and the principles of emphasis, contrast, and harmony in printmaking and photography using new technologies.	The learner demonstrates understanding of participation and assessment of physical activity and physical fitness	Demonstrates understanding of the health implications of poor environmental sanitation	Demonstrates understanding of the health implications of poor environmental sanitation
B. Performance Standards	performs accurately the design or structure of a given musical piece	describes the basic concepts and principles of basic photography.	The learner participates and assesses performance in physical activities. assesses physical fitness	consistently practices ways to maintain a healthy environment	consistently practices ways to maintain a healthy environment
C. Learning Competencies	distinguishes various musical ensembles seen and heard in the community	applies composition skills to produce a printed photograph for a simple photo essay	Displays joy of effort, respect for others during participation in physical activities	practices ways to control/manage noise pollution	practices ways to control/manage noise pollution
D. Learning Objectives	distinguishes various musical ensembles seen and heard in the community	applies composition skills to produce a printed photograph for a simple photo essay	Displays joy of effort, respect for others during participation in physical activities	practices ways to control/manage noise pollution	practices ways to control/manage noise pollution
II. CONTENT *(Subject Matter)*	**Western Orchestra and Musical Ensembles in the Community**	**PHOTOGRAPHY**	**DIFFERENT SKILLS INVOLVING IN THE DANCE**	**SUGGESTS WAYS TO CONTROL/MANAGE NOISE POLLUTION**	**SUGGESTS WAYS TO CONTROL/MANAGE NOISE POLLUTION**
III. LEARNING RESOURCES **A. References**					
1. Teacher's Guide pages	SLM/ADM	SLM/ADM	SLM/ADM	SLM/ADM	

2. Learner's Material pages	Laptop, Audio-visual, Presentation	Laptop, Audio-visual, Presentation	Laptop, Audio-visual, Presentation	Laptop, Audio-visual, Presentation	
3. Textbook pages					
4. Additional Materials from Learning Resource LR portal					
B. Other Learning Resources					
IV. PROCEDURE					
A. Drill/Reviewing previous Lesson or presenting new lesson	Do you know how to play musical instruments? What instrument you can play?	Review the previous lesson.	Review the previous lesson.	Environmental sanitation is the art and science of applying sanitary, biological and scientific knowledge to improve and control the environment for the protection of health and welfare of the public.	
B. Establishing a purpose for the lesson	There are basically four sections in the orchestra which are based on the family of musical instruments. The instruments in each family share the same characteristics.	In photography, camera is the primary tool. Camera choice depends on the abilities and interest of the photographer. Each type of camera is different from one another. The advantages of one camera can be a disadvantage of another. Phone Camera can be found in a mobile phone. This is used to capture photographs and to record video. With the growth of technology, taking pictures has become easy since handy mobile phone is now equipped with a camera.	 	How can we keep our water and air clean and safe? How can we control noise pollution?	

		 Point and Shoot Camera is also a camera made for easy use. It is also called compact camera.			
C. Presenting examples/ instances of the new lesson	Do you like playing musical instruments? What musical instruments do you want to play? Do you want to play together with other musicians in an orchestra?	If you will be the photographer, what scenery would you take a picture? Why?	Let's practice the formations.	We live in an ecosystem wherein a person's action has the potential to affect others and the environment. These actions are better known as pollutants. The air we breathe and the water we drink are essential for our health and well-being. However, we, the people who need them most, are the one who are polluting them causing hazards in our own health and even our own death. Pollution prevention is a major global concern because of its harmful effects on every person's health and on the environment. It is your responsibility to take care of your place to make it ideal for people to live in. There are small changes that you can do that can make a difference, both	

				in short and long term. Another pollution is the noise pollution. This can cause serious health conditions and future problems like; 1. Hearing or auditory problems 2. Non auditory problems	
D. Discussing new concepts and practicing new skills.#1	 String family is the biggest section of the orchestra. The violin, viola, cello and double bass are the most common instruments in the string family. They are made of wood and usually carved into their characteristic curvy wooden body shape, which is attached to a wooden neck piece. They all have four strings that are attached to wooden tuning pegs on the headpiece located on the top of the neck. The strings are stretched over the body and neck of the instrument. The bodies of string instruments are hollow to allow the sound of the vibration to resonate. They produce sounds when their strings are being plucked by fingers or	Composition is how the elements of a photo are arranged. It is how the artist puts those things within a frame that help a photograph become interesting to the viewer. A good photograph will take many different parts and combine them into an aesthetically pleasing whole. Occasionally, one image does not tell the entire story. Photographic or photo essay is a set of images that is needed to complete the tale or messages. It can simply be images, images with captions, or images accompanied by a full text. The important feature is that it tells a story or deliver an important and meaningful message. Popular photo essays have one or more of these features: □ Humorous - causing lighthearted laughter and amusement □ Evokes emotion - To evoke a	Philippine Folk dances Itik-itik is a mimetic folk dance in the Philippines. It originated in Surigao in Philippines. Itik-itik was discovered in this town by National Artist for Dance Francisca Reyes-Aquino. Dance steps : Lakaw Itik (duck steps) – duck waddle Korriti Cross Steps and double hops (1) running, (2) cross step, slide close, slide close step, (3) heel, close-ball, close arm, (4) step, slide-close, slide, (5) arms extension/flexion, and (6) flapping of the arms.	Noise is already a part of our daily activities, it is not easy to prevent it but there are ways you can control it. 1. Control the source- turn off your computers ,tv, radio, game systems or appliances when you are not using them. 2.Transmission path intervention, sound proofing or silencers. Curtain will help in reducing the sounds coming from outside. 3. Control the receptor. You may use earplugs to decrease the level of the sound you hear. 4. Mark the noise. You may create peaceful sounds like hanging wind chimes. 5. Plant trees because they absorb sound.	

	struck and bowed with a bow. The bow is made of wood and horse hairs. Musicians pressed down on the strings with their fingers of the left hand and draw the bow across the string with the right hand.
	As with any instrument, the smaller it is, the higher the pitches it plays, and the larger the instrument is, the lower the pitches it plays. The string family includes the following instruments.
	
	Instruments in this family all used to be made of wood, which give them their names. Nowadays, they are made not only of wood but also of metal, plastic or some combination. They are all tubes with an opening at one end and a mouthpiece at the other end. They each have rows of holes that are covered by metal caps called keys.
	They produce sound when the player blows air against a sharp edge or through a reed causing the air within its resonator to vibrate.
		particular memory, idea, emotion, or response means to cause it to occur Inspires deeper thoughts - Can ever be reached as the more you learn the deeper the meaning and the more the thought expands
		  Spurs action - anything serving to urge or encourage
		  Encourages compassion - embodies a tangible expression of love for those who are suffering
		  Sparks debate - to cause an argument, fight, etc. to start happening			

	Musicians play these instruments by blowing air through the mouthpiece and opening or closing the holes with their fingers to change the pitch. Below are instruments of the Woodwind family. The brass instruments are made of metal. They are important in producing the loud, exciting parts of the orchestra. The instruments are also blown to create sounds by buzzing the player's lip against the mouthpiece. The brass instruments are lip-vibrated instruments. They produce sound from the vibration created by the musicians pressing their lips up against the mouthpiece while blowing. The vibration between the lips and the mouthpiece causes the air to vibrate down the long brass tube. Those tubes help the instruments to make different sounds. The buttons on				

	the instruments are called valves. By pressing the valves, the player adds in additional length to the tube. Here are some examples of brass instruments. Percussion instruments refer to musical instruments that produce sound by striking them with sticks or hammers, while others are through rubbing or shaking them against another similar instrument. The materials used to make percussions include metal, wood or plastic and they come in different sizes and shapes. They are used in accenting the rhythm and heightening the climax in the orchestra. Percussion instruments are divided into two classes: pitched and unpitched. Pitched Percussion instruments produce notes with an identifiable or definite pitch.				
E. Discussing new concepts and practicing new skills #2.	Listen carefully to the sounds of the musical instruments. Identify the	Photo Essays Examples 1. Day-in-the-life photo essay: These kinds of photo	The Maglalatik is an indigenous dance from the Philippines. Coconut shell	Answer the following question: 1. What is pollution?	

	instrument being played. Refer to the Youtube link for this activity. (https://youtu.be/4hF_TQueolE)	essays tell the story of a day in the life of a particular subject. They can showcase the career of a busy businessman or struggling students, capture parents' daily chores and playtime with their children. A day-in-the-life photo series can be emotionally expressive, giving viewers an intimate glimpse into the world of another human being. 2. Historic site photo essay: Taking pictures of historic landmarks offers a variety of different perspectives—the use of unique angles, depths, and lighting. The use of drones and reflections are also useful in your quest to find the ideal assistance point and display a variety of scenes of the same subject. 3. Behind-the-scenes photo essay: Behind-the-scenes photo essays are great ways to capture what goes into events from start to finish. With this type of photo story, you can see the working parts of a production and how it all	halves are secured onto the dancers' hands and on vests upon which are hung four or six more coconut shell halves. Dance Steps: (1) jogging, (2) forward-backward step, (3) arm swing, and (4) 8 quick clap cycles.	2. Why do you think noise pollution is the most neglected type of pollution? 3. What are the 3Rs? Give two sample of each R?	

		moves together in harmony. 4. Local event photo essay: Local events like fundraisers, art shows, or festivals are great places to document a photography project. Candid photos of people working, performing, or taking in the sights can be compiled into a photo essay along with background objects to help paint a scene.			
F. Developing Mastery (Lead to Formative Assessment 3)	Read the sentence carefully. On a separate sheet of paper, write True if the sentence is correct and False if it is wrong. 1. Glockenspiel is smaller than xylophone, and with a steel bell instead of wood. 2. Unpitched percussion instruments produce notes with unidentifiable or indefinite pitch. 3. The only instrument in the brasswind family that uses a slide rather than keys, valves, or strings is called tuba. 4. Oboe is the most dramatic among the woodwind instruments and has a double-reed mouthpiece. 5. Double bass is the smallest and has the highest pitch in the string family.	Create a photo essay using the steps below 1. Decide what your essay will be all about. Come up with a theme and make sure that you have a story to tell. 2. Brainstorm on ideas for photo composition. Write down your thoughts and together choose the best idea. 3. Execute your ideas and take good pictures. 4. Make sure that your photos connect with one another and flow from one picture to the next. 5. Add text or captions. 6. Give a title to your photo essay. Integrated development of the following skills:	ACTIVITY: Perform the following dance as you watch it from the youtube video. Watch the video of the dance Itik-itik Link for the video of the dance: https://www.youtube.com/watch?v=FJIvlTR2HDI Watch the video of the dance Maglalatik Link for the video of the dance: https://www.youtube.com/watch?v=do4GyUk3XKc	DIRECTIONS: With the help of your family member, draw the proper ways practices that you do in your house to manage noise pollution. Do this in a short bond paper. Rubrics in Drawing Standard | Very Satisfactory (4) | Satisfactory (3) | Average 2) | Needs improvement (1) 1. Can draw easily what have been notice. 2. Neat and beautiful. 3. Have cooperation to have good result.	

	family.	1. Communication (following directions) RUBRICS FOR PHOTO ESSAY Indicators | 1 | 2 | 3 | 4 | 5 1. The photo essay follows a specific theme. 2. All images are appropriate to the topic. 3. Photo essay evokes strong emotion and evidences creativity. 4. Title and captions compliment the images and work together harmoniously to reinforce the theme consistently. 5. Theme is clear and well-developed throughout entire photo essay. Total Score Legend: 1-Poor 2-Below Satisfactory 3-Satisfactory 4-Good 5-Very Good			
G. Finding practical application of concepts and skills in daily living	Read and understand the questions carefully. Write the letter of the correct answer on a separate sheet of paper. 1. There are three ways of playing string instruments. It is played by either bowing, strumming or plucking. This instrument is played by plucking its 47 strings and using 7 pedals to change the pitch. What is this? A. viola B. harp C. violin D. guitar 2. It is the smallest instrument of the brasswind family that produces the highest pitch and the most brilliant sound. What instrument is being referred to? A. trombone B. trumpet C. tuba D. french horn 3. An orchestra is a group of musicians playing a symphony with different instruments. What are the group or families of instruments that compose an orchestra? A. brass, wind, percussion C. brasswind, string, woodwind, percussion	Performance task	Performance		

	B. string, percussion, brasswind D. woodwind, string, percussion 4. The string family is the biggest section in the orchestra. What is its smallest instrument that has the highest pitch in the family? A. cello B. violin C. double bass D. viola 5. Woodwind instruments are played by blowing air into the mouthpiece. What is the biggest instrument among the woodwind family? A. oboe B. piccolo C. bassoon D. saxophone				
H. Making Generalizations and Abstraction about the Lesson.	The instrumental sections of the Western Orchestra can be identified visually and aurally. • String is the biggest section of the orchestra. Instruments in this section are played either by bowing, plucking or strumming. • The four most common instruments in the string family are violin, viola, cello and double bass. • Woodwind instruments are all tubes with an opening at one end and a mouthpiece at the other end. They each have rows of holes that are covered by metal caps.	Composition is how the elements of a photo are arranged. Photo essay is a set of images is needed to complete the tale or messages. The important feature of photo essay is that it tells a story or deliver an important and meaningful messag	Why is folk dance considered as a way of portraying lives of the people? _____ _____ _____ _____ _____ _____ _____ _____ _____	Hands-on activity	

	• Woodwind family includes piccolo, flute, clarinet, oboe, bassoon, and saxophone. • The brass instruments are lip-vibrated instruments. • Brass family includes trumpet, French horn, trombone, tuba. • Percussion instruments refer to musical instruments sounded by striking with sticks, hammers or mallets; while others are through rubbing or shaking against another similar instruments. • There are two kinds of percussions: pitched and unpitched.				
I. Evaluating Learning	Directions: Read the sentences carefully. Identify the orchestra instrument being described. Write your correct answer on a separate sheet of paper 1. It is arranged like the xylophone but with a steel bell instead of wood. 2. It is the most dramatic among the woodwind instruments. 3. It is the largest instrument among the brass family. 4. It is a little larger in size and has slightly thicker strings than the violin's strings. 5. It is the alto member of the brass family.	1. What do you see, feel, and think upon looking at the your pictures? 2. What group, event, issue, or community is shown? 3. What story is in your photo essay telling? 4. What details in the photograph help to tell the story?	Draw the five fundamental positions of arms and feet in dance.	Hands-on activity	

J. Additional Activities for Application or Remediation	Search for other instrumental that can be use.	Take an interesting picture in your community.	Give the different dance steps in Maglalatik. 1. _____ 2. _____ 3. _____ 4. _____		
V. REMARKS					
VI. REFLECTION					
A.No. of learners who earned 80% in the evaluation	___ of Learners who earned 80% above	___ of Learners who earned 80% above	___ of Learners who earned 80% above	___ of Learners who earned 80% above	___ of Learners who earned 80% above
B.No. of learners who require additional activities for remediation who scored below 80%	___ of Learners who require additional activities for remediation	___ of Learners who require additional activities for remediation	___ of Learners who require additional activities for remediation	___ of Learners who require additional activities for remediation	___ of Learners who require additional activities for remediation
C.Did the remedial lessons work? No. of learners who have caught up with the lesson	___Yes ___No ____ of Learners who caught up the lesson	___Yes ___No ____ of Learners who caught up the lesson	___Yes ___No ____ of Learners who caught up the lesson	___Yes ___No ____ of Learners who caught up the lesson	___Yes ___No ____ of Learners who caught up the lesson
D.No. of learners who continue to require remediation	___ of Learners who continue to require remediation	___ of Learners who continue to require remediation	___ of Learners who continue to require remediation	___ of Learners who continue to require remediation	___ of Learners who continue to require remediation
E.Which of my teaching strategies worked well? Why did these work?	*Strategies used that work well:* __Group collaboration __Games __Power Point Presentation __Answering preliminary __activities/exercises __Discussion __Think-Pair-Share	*Strategies used that work well:* __Group collaboration __Games __Power Point Presentation __Answering preliminary __activities/exercises __Discussion __Think-Pair-Share	*Strategies used that work well:* __Group collaboration __Games __Power Point Presentation __Answering preliminary __activities/exercises __Discussion __Think-Pair-Share	*Strategies used that work well:* __Group collaboration __Games __Power Point Presentation __Answering preliminary __activities/exercises __Discussion __Think-Pair-Share	*Strategies used that work well:* __Group collaboration __Games __Power Point Presentation __Answering preliminary __activities/exercises __Discussion __Think-Pair-Share

F.What difficulties did I encounter which my principal or supervisor can help me solve?	__Comprehension __Lack of Interest of pupils	__Comprehension __Lack of Interest of pupils	__Comprehension __Lack of Interest of pupils	__Comprehension __Lack of Interest of pupils	__Comprehension __Lack of Interest of pupils
